

Oxy Permian Basin Salt Creek Expansion

Jayton, Texas

Advanced Piping Products

Project Information

Industry	Midstream
Client	Oxy
Name	Permian Basin Operations/Salt Creek Expansion
Scope	VibraTek Hold Down Clamps

Our Role

Supplied hundreds of VibraTek Hold Down Clamps for all reciprocating compressors for an Oxy Salt Creek Expansion project, located in Jayton, Texas.

Project Specifications

Location	Jayton, Texas
Date	Completed 2011
Description	The Permian Basin extends throughout southwest Texas and southeast New Mexico. It is one of the largest and most active oil basins in the U.S., accounting for approximately 19 percent of the total U.S. crude oil production.

Highlights

- Large resource inventory – Oxy holds 2.2 million net acres.
- 2009 production of 185 million barrels of oil equivalent per day.
- 1.1 billion barrels of oil equivalent of net proved reserves (34% of Oxy total).
- 6 rig drilling program focused on exploitation of recent “bolt-on” acquisitions.
- Running 65 work over rigs focused on highest productivity wells.
- APP VibraTek Clamps were evaluated and approved for all reciprocating compressor piping.
